ONLINE TATHYA
WordPress offers you the ability to create a custom URL structure for your permalinks and archives. Custom URL structures can improve the aesthetics, usability, and forward-compatibility of your links. A number of tags are available, and here are some examples to get you started.
Common Settings
Select the permalink structure for your website. Including the %postname% tag makes links easy to understand, and can help your posts rank higher in search engines.
Permalink structure
Plain
https://digitalsudip.xyz/?p=123
Day and name
https://digitalsudip.xyz/2025/12/17/sample-post/
Month and name
https://digitalsudip.xyz/2025/12/sample-post/
Numeric
https://digitalsudip.xyz/archives/123
Post name
https://digitalsudip.xyz/sample-post/
Custom Structure
https://digitalsudip.xyz
/%postname%/
Available tags:
%year%
%monthnum%
Permalink Post Name
সিলেক্ট করুন
Optional
If you like, you may enter custom structures for your category and tag URLs here. For example, using topics as your category base would make your category links like https://digitalsudip.xyz/topics/uncategorized/. If you leave these blank the defaults will be used.
Category base

By Brainstorm Force
Disable auto-updates
The Astra WordPress theme is lightning-fast and highly customizable. It has over 1 million downloads and the only theme in the world with 6,000+ five-star reviews! It's ideal for professional web designers, solopreneurs, small businesses, eCommerce, membership sites and any type of website. It offers special features and templates so it works perfectly with all page builders like Spectra, Elementor, Beaver Builder, etc. Fast performance, clean code, mobile-first design and schema markup are all built-in, making the theme exceptionally SEO-friendly. It's fully compatible with WooCommerce, SureCart and other eCommerce plugins and comes with lots of store-friendly features and templates. Astra also provides expert support for free users. A dedicated team of fully trained WordPress experts are on hand to help with every aspect of the theme. Try the live demo of Astra: https://zipwp.org/themes/astra/
